America The Beautiful

O beautiful for spacious skies/For amber waves of grain.
For purple mountain majesties/Above the fruited plain.
America! America! God shed His grace on thee,
and crown thy good with brotherhood from sea to shining sea.

O beautiful for patriot dream/That sees beyond the years.
Thine alabaster cities gleam/undimmed by human tears.
America! America! God shed His grace on thee,
and crown thy good with brotherhood from sea to shining sea.

Music provided by Polished Brass.

Commencement Program

The Procession	The Presidential Party And The Board of Trustees The Faculty and Administration The Candidates for Degrees and Certificates
Presiding	Monica Posey, Ed.D. Academic Vice President
Prayer & Meditation	The Reverend Alvin Gille Manchester Baptist Church
"America The Beautiful"	Audience led by Marcia Caulton

2008 House-Bruckmann Award Winners

Tom Burns, Ph.D.

Dr. Burns is Program Chair of Civil Engineering Technology, one of the larger and more complex programs at Cincinnati State, because of its three majors in architectural, construction management, and surveying. Dr. Burns recently completed a doctorate in Technology Management with a Construction Concentration at Indiana State University. He has significant professional leadership at the national level as a Board Member of the American Council for Construction Education and an external reviewer for construction programs at other colleges. He has published a textbook, *Applied Statics & Strength of Materials*. Dr. Burns is much admired among faculty and students. Faculty members describe him as a valuable leader in the division, intelligent, hardworking and dedicated, setting the standard for excellence.

Paul Davis, Ed.D.

Dr. Davis is Area Chair for Behavioral and Social Sciences in Humanities and is an instructor in Business Technologies. His first priority is always to serve the College where needed, which has included being an instructor, program chair, co-op coordinator, and assistant dean. In Humanities he has facilitated approval of Ohio Transfer Assurance Guide courses, taught history and developed a political science course. In Business Technologies he teaches a range of courses. Dr. Davis is an advocate for faculty, both at the institutional and state level as the American Association of University Professors president. He helped establish the Faculty Wall of Excellence at Cincinnati State. He has gained recognition and influence in higher education in the State of Ohio and works in the community with the East End Adult Education Center.

Ms. Linda Romeo-Smith

Ms. Romeo-Smith is Cooperative Education Coordinator for the Humanities and Sciences programs. She is known for her expertise in employment, career development, and cooperative education. She has used this to skill to coordinate several successful employer career fairs and is the past chair of the College's Cooperative Education Committee. She is the course keeper for the Career Exploration Seminar. Cincinnati State is a national and local leader in cooperative education, and Ms. Romeo-Smith advances this legacy through her work with STRIVE and as a member of the Cooperative Education Advisory Board of the College of Mt. Saint Joseph. She is always at the forefront of some very important work at the College to increase the success of Cincinnati State students. She is a member of the New Student Orientation Committee and the Commencement Committee.

Distinguished Alumni Award

Joe B. Windham '94

Mr. Windham is a 1994 Business Management graduate of Cincinnati State Technical and Community College. He has worked for Duke Energy (formerly Cincinnati Gas & Electric Company) for 28 years. As a business analyst for Duke he is currently working with a team of individuals who have the responsibility to develop, test, and install a new enterprise-wide asset management system. Mr. Windham continued his education after graduating from Cincinnati State. He earned a bachelor's degree in organizational management from Wilberforce University and a master's degree in management from Antioch University-McGregor. He earned his degrees while working full-time. Mr. Windham has been an active member of the American Lung Association since 1995, serving on the board of the Ohio Chapter. He now serves on the board of the American Lung Association of the Midland States, chairing its Diversity Committee. Mr. Windham has served several terms on the Cincinnati State Alumni Association Board, volunteering at all alumni-sponsored events.

Honorary Degree Recipient

Lou Groen

Mr. Groen's successful business career was born with the invention of the Filet-O-Fish sandwich in 1961. As the area's first McDonald's franchise owner, he saw his business lag on Fridays and during Lent in his largely Catholic community. He invented the Filet-O-Fish sandwich to compete head-to-head with Frisch's fish sandwich. Ray Kroc, McDonald's owner, didn't like the fish sandwich idea, but in a competition between Mr. Groen's Filet-O-Fish and Mr. Kroc's meatless sandwich, the Filet-O-Fish won hands down. That sandwich is sold in McDonald's all over the world. The huge success of the sandwich led to Mr. Groen's ownership of 43 McDonald's restaurants with 3,000 employees in Greater Cincinnati and Northern Kentucky. As a thank you to the area for his success, Mr. Groen helped launch and support Cincinnati's Ronald McDonald House.

2008 Commencement Speaker

Tim Garrett

Mr. Tim Garrett is a vice president for Honda of America Mfg. in Administration. He oversees career development programs and services for the company's 12,500 associates, including associate relations, associate development and education programs, employment, benefits, medical and health services. He is also responsible for safety and environmental management at Honda's four manufacturing plants in west central Ohio. A member of Honda's senior management group, Mr. Garrett helps set policy and direction for the company through workforce planning and development and other strategic planning initiatives. Mr. Garrett joined Honda in 1983 as an assistant manager of administration. He was promoted to senior manager. In these roles he contributed significantly to Honda's growth in manufacturing during the 1980s.

Academic Dress

From the costumes worn in the academic procession one can tell the level of degree (associate's, bachelor's, master's, doctor's) the wearer has earned, the field of learning, and the institution that granted the degree. The costume consists of cap, gown, and hood.

The usual cap is a square black mortarboard with a black tassel; the doctor's cap has a gold tassel. The gown is also normally black. Associate's, bachelor's and master's gowns are relatively plain and closed in front; the doctor's gown is cut fuller, is open in front, has velvet panels down the front, and has three velvet bars on the sleeves. The panels and bars are usually black.

The hood, patterned after the medieval monk's hood, goes over the shoulders and hangs down in back. The hoods for the three degrees vary in length from the bachelor's the shortest, to the doctor's the longest. The velvet border shows by its color the field of learning; the most common are: white - arts, letters, humanities (usually seen in honorary doctor's degrees); dark blue - philosophy (the most common in doctor's hoods); purple - law; scarlet - theology; green - medicine; golden yellow - science.

The same colors may be used in the panels and bars of the gown. The most distinctive part of the costume is the silk lining of the hood which bears the official colors of the institution granting the degree.
