"I Hope You Dance" by Mark D. Sanders/Tia Sillers.....	MCA Nashville Records Marcia Caulton
Benediction.....	Pastor Chuck Mingo
Recessional	The Platform Party The Faculty and Administration The 2011 Graduates

America the Beautiful

O beautiful for spacious skies,
For amber waves of grain.
For purple mountain majesties,
Above the fruited plain.
America! America! God shed His grace on thee,
And crown thy good with brotherhood from sea to shining sea.

O beautiful for patriot dream,
That sees beyond the years.
Thine alabaster cities gleam,
Undimmed by human tears.
America! America! God shed His grace on thee,
And crown thy good with brotherhood from sea to shining sea.

Music provided by Polished Brass.

Graduation Honors

Cum Laude 3.50 - 3.79

Magna Cum Laude 3.80 - 3.89

Summa Cum Laude 3.90 - 4.00

Students graduating with honors wear green honor cords.

Honors Experience graduates wear gold honor cords.

Academic Dress

From the costumes worn in the academic procession one can tell the level of degree (associate's, bachelor's, master's, doctor's) the wearer has earned, the field of learning, and the institution that granted the degree. The costume consists of cap, gown, and hood.

The usual cap is a square black mortarboard with a black tassel; the doctor's cap has a gold tassel. The gown is also normally black. Associate's, bachelor's and master's gowns are relatively plain and closed in front; the doctor's gown is cut fuller, is open in front, has velvet panels down the front, and has three velvet bars on the sleeves. The panels and bars are usually black.

The hood, patterned after the medieval monk's hood, goes over the shoulders and hangs down in back. The hoods for the three degrees vary in length from the bachelor's the shortest, to the doctor's the longest. The velvet border shows by its color the field of learning; the most common are: white - arts, letters, humanities (usually seen in honorary doctor's degrees); dark blue - philosophy (the most common in doctor's hoods); purple - law; scarlet - theology; green - medicine; golden yellow - science. The same colors may be used in the panels and bars of the gown. The most distinctive part of the costume is the silk lining of the hood which bears the official colors of the institution granting the degree.

2011 Commencement Speaker

Gary Cates

Senior Vice Chancellor
Division of Innovation and Enterprise Development
Ohio Board of Regents

Gary Cates is Senior Vice Chancellor, Division of Innovation and Enterprise Development, at the Ohio Board of Regents.

Mr. Cates, a resident of West Chester, joined the Regents last month to lead enterprise and innovation priorities for the University System of Ohio – including the establishment of charter or enterprise universities.

Before joining the Board of Regents, Mr. Cates represented Butler County in the Ohio Senate for seven years. During his most recent term he served on the Senate Education Committee; the Health, Human Services and Aging Committee; and the Highways and Transportation Committee.

Mr. Cates previously served as chairman of the Education Committee and the State and Local Government and Veterans Affairs committees; he is also a former ex officio member of the Ohio School Facilities Commission, the Ohio Board of Regents, and the Ohio State Board of Education.

Prior to joining the Senate, Mr. Cates served four terms in the Ohio House of Representatives and was Speaker Pro Tempore – the chamber's number-two leadership post – for two of those terms. Before that Mr. Cates served as a township trustee and was employed as a steel applications engineer for AK Steel.

Mr. Cates earned his undergraduate degree in civil engineering from Virginia Tech and a master's degree of business administration from the University of Dayton. He and his wife Jill have two sons, Andrew (who is enrolled at Cincinnati State) and Brenton (who plans to attend the University of Cincinnati next year).

"Senator Cates has long been a champion of higher education and the need to align education for the specific needs of our state and future," said Regents Chancellor Jim Petro in a statement announcing Mr. Cates' appointment. "The governor and I have known Senator Cates for many years and know that he brings strong leadership in education and innovation, along with a reputation for aggressively moving forward important initiatives on behalf of all Ohioans."

2011 Award Winners

House-Bruckmann Awards

Cincinnati State Technical and Community College has presented faculty members Robert Eveslage and David Killen with its 2011 House-Bruckmann Awards for teaching excellence.

The House-Bruckmann Awards are given annually on the basis of nominations and secret ballots by Cincinnati State faculty members. They are named after Clifford House, the first president of Cincinnati Technical College, and Alice Bruckmann, a member of the College's first board of trustees.

In presenting the awards during a recent ceremony, President O'dell M. Owens said the awards reflect the work of a faculty that is quickly changing the perception of Cincinnati State. "We're not your grandfather's community college. We're not your perception of a community college any longer," Dr. Owens said. "It's because of great faculty like you."

Both award winners are veteran instructors at Cincinnati State.

Robert Eveslage

Eveslage, a Springfield Township resident, earned his bachelor's degree from the University of Cincinnati and a graduate degree from Indiana University/Purdue University at Indianapolis.

He came to Cincinnati State in 1979 to teach in the Respiratory Therapy program. In 1986 he moved to the Biology Department in response to increasing demand, and in 1988 became chairman of the department.

In 1994, when the Biology Department moved into the then-new Health Professions Building, it had four full-time faculty and about 1,200 students. Today it numbers nine full-time faculty and two lab techs who help serve more than 4,000 students.

"He is insightful, and has very high standards," said Dr. Marianne Krismer, Dean of the Health and Public Safety Division at Cincinnati State. At the same time, she said, Eveslage is resourceful.

"If it needs to be done, he figures out a way," Dr. Krismer said. "He makes it happen."

David Killen

David Killen is a Fort Thomas, Ky. resident who studied at Berklee College of Music in Boston, Mass., and holds a bachelor's degree from Wilmington College.

He started at Cincinnati State as an adjunct after 12 years as an audio engineer, broadcast producer and editor.

He is now chair of the College's Audio-Video Production program, which has seen its enrollment increase by more than 30 percent in the past two years. Killen also remains active in the industry.

Doug Bowling, Associate Dean at Cincinnati State's Center for Innovative Technologies, said Killen has assembled a team that has made the College's Audio-Video Production program one of the most respected of its kind in the country.

"He has that great gift of presenting complex technical terms in words that everyone can understand," said Bowling, who added that Killen is consistently praised by one of the most diverse groups of students in the College.

Distinguished Alumni Award

Tom Hale

Tom Hale is the recipient of the 2011 Distinguished Alumni Award.

He is a 1994 graduate of Cincinnati State, and now a 17-year employee of the College. Go ahead, do the math and you'll get there: Tom is one of those graduates who went on to make a career here at Cincinnati State.

Boy, are we glad he did.

As one nominee put it, Tom is Mr. Cincinnati State. He has worked throughout the College, knows everyone on campus and has an institutional knowledge that takes in not just facts and dates but also the personal narratives behind them.

After earning his associate's degree in managerial accounting, Tom took a co-op position at Cincinnati State while starting work on his bachelor's degree through our joint program with Wilmington College. (He eventually earned a BA in business administration there.)

At Cincinnati State he has worked in Purchasing and Finance; the Registrar's Office; Information Technology Services; the Financial Aid Office; the Business Technologies Division and, currently, in the office of the Vice President of Strategic Initiatives and Entrepreneurial Development. What makes Tom exceptional is his personality, however, not his longevity.

Tom is unfailingly friendly, even when he's under inhuman stress. He's a quick study, makes pragmatic decisions and, as one nominee noted, "finds solutions rather than arguing about what can't be done."

To students, new faculty and staff and those who don't pay much attention to the workings of the place, Tom is probably best known at Cincinnati State for his comic performances as master of ceremonies at such annual events as the Employee Appreciation Picnic or the Service Appreciation Awards. On such occasions a brand of humor is on display that is self-deprecating and occasionally stinging, but it never fails to keep the house loose.

Tom is also legendary for the hours he puts in at after-hours events – whether it's yet another Midwest Culinary Institute dinner or a weekend meeting in Middletown, if his help is needed, he'll be there.

One other aspect of Tom's service to Cincinnati State and his community perhaps isn't as obvious – his quiet leadership, in ways that matter. He puts in hundreds of hours at his church on volunteer projects. And here at the College, he's someone that people turn to when they need help – because they know he's compassionate and that he'll not only listen, but help if he can.

As one person who nominated Tom for this award put it, "He exemplifies the traits that all of us at Cincinnati State hope to instill in our students."

Class of 2011 Student Representatives

Jason Heyl

Jason Heyl is a military veteran who is majoring in Electromechanical Engineering Technologies at Cincinnati State, with a particular interest in the renewable energy and laser programs. He is president of the Cincinnati State chapter of Phi Beta Kappa, participates in the Honors Experience at Cincinnati State, and volunteers as a tutor at the College. After graduation he plans to pursue a degree in engineering at the University of Dayton.

Judy Oberton

On some campuses Judy Oberton might be classified as a non-traditional student. A Norwood resident who once owned her own business, she came to Cincinnati State to study office management and to emphasize to her grandchildren the importance of education. Through the College's co-op program she gained employment at the Veterans Administration in Cincinnati.
